Description

CLD StoneFence is our incredibly stylish eco-friendly decorative walling. Using twin welded wire mesh panels to create a divide, the beauty of local stone, broken brick or other recycled products can be displayed. The resulting barrier is resilient, vandal-resistant and noise-absorbing, while also becoming a natural haven for insects and wildlife. Strong enough to hold large quantities of natural filling, the durable mesh panels are made from 8mm and 6mm steel wires which cannot be easily cut, broken or damaged. StoneFence is also compatible with our Dulok™ system, allowing you to form secure barrier fences and walls of varying heights.

Features

Filled with the stone of your choice

Suitable for playgrounds, recreation grounds, parks, housing developments

Bespoke decorative panels available
